

Quiz Application

Problem Statement: Develop an online Quiz application.

Expected Features:

- Authentication (login / logout)
- Show 5 questions one at a time. Each question will have 4 choices (only one of them is correct)
- At the end, show the results (5/5 excellent; 4/5 very good, 3/5 good, 2/5 fair, 1/5 poor, 0/5 very poor)
- "Try Again" option to reset and start all over again

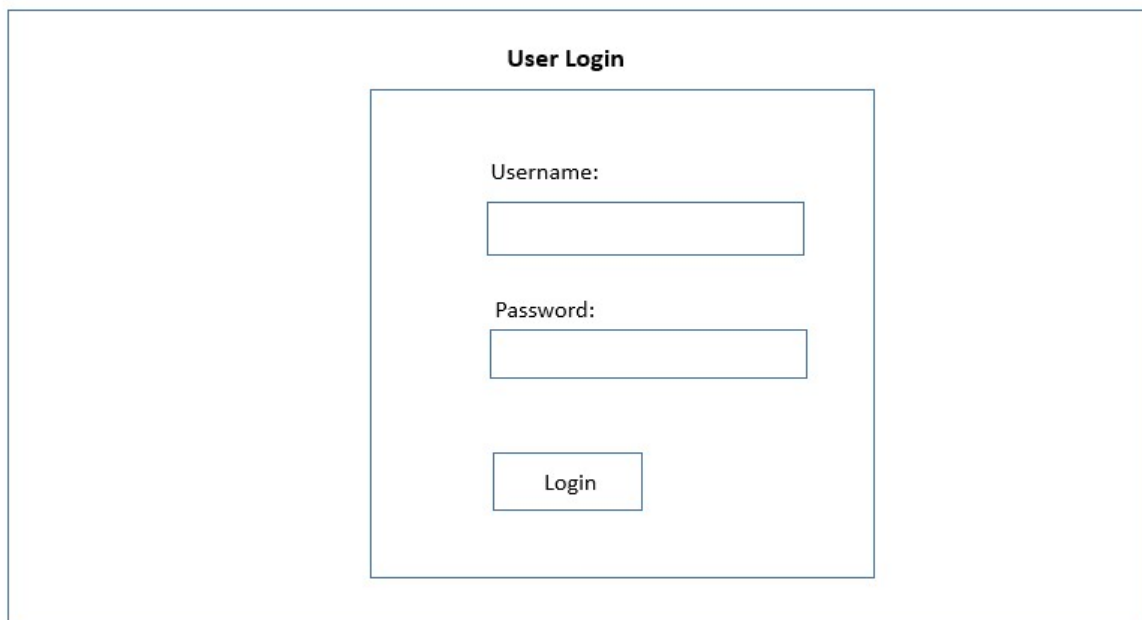

Technology to be used: HTML5, CCS3, BootStrap, Javascript, JQuery

Evaluation will be based on:

1. Completeness of application
2. Effective use of all technologies
3. Quality of code
4. Demo
5. Q&A

Due Date & Time: October 29, 2019 (Tuesday) - 6:30 PM

Wireframe:

The wireframe shows a 'User Login' section. It contains a 'Username:' label followed by a text input field, a 'Password:' label followed by a text input field, and a 'Login' button below them.
